Resources to Support Our Diverse Community

Our co-hosts at the Florida Trail Association and Partnership staff have worked tirelessly to assemble a positive, productive, and inclusive environment for our members, trail professionals, and guests.

The Partnership is a non-political entity. That said, we recognize that the political climate is challenging across the country and especially so in Florida. We are working with the City of Orlando, Orange County, and the Florida Hotel and Conference Center to provide attendees with the most up-to-date resources and information on healthcare, security, and any other pertinent information related to our workshop.

We look forward to supporting the employees and their families that rely on the wages and benefits associated with the local revenue generated by our workshop and attendees.

We welcome inquiries about any concerns as they may arise at cara@pnts.org

Florida Hotel and Conference Center Statement:

The Florida Hotel and Conference Center is considered a small business owned by a minority and feels that Visit Orlando speaks for the city as a whole as well as our hotel with their recent statement: "Orlando has always been and will continue to be a diverse, welcoming and inclusive community. As the top travel destination in the country and a longstanding leader in the travel industry, our community has a history of welcoming all to our destination. Travel and tourism positively impact our community and plays a valuable role in ongoing engagement and dialogue. Visit Orlando will continue to encourage travel to our destination to drive progress and support hard-working small businesses."
